

ALPHABET Stoop

2-5 players

Ages 7+

20 min

Prove that you run the best delivery company around! Drop off your packages on stoops and form words with newspapers (vowels), magazines (wild letters), and other packages (consonants).

COMPONENTS

15 Stoop Cards

7 Magazine Tokens

15 Parcel Carriers

25 Player Stamp Tokens

60 Package Tokens

19 Envelope Tokens

21 Newspaper Tokens

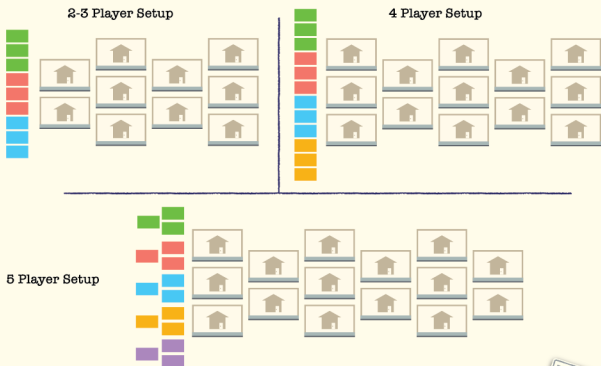

GOAL

Be the first player to drop off all your packages **OR** earn **NINE** Victory Points (1 point per Stoop Card you occupy and 1 point per Stamp you have placed).

SETUP

Randomly place Stoop Cards face up as shown. Return extra cards to the box.

Randomly place one Magazine Token or Newspaper Token on each building.

Each player chooses a delivery carrier and the matching colored Package and Stamp Tokens. Randomly fill your Carriers with your packages. Place all Carriers left of the left-most row of Stoop Cards.

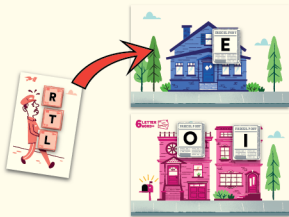

Whoever was the last to order something online goes first.

Second and Third players get **ONE Envelope Token**.
Fourth and Fifth players get **TWO Envelope Tokens**.

YOUR TURN! You have **3** actions per turn.
Your possible actions are:

Move your Carrier to an adjacent Stoop Card (1 action)

NOTE: Each Carrier's first move must be onto a Stoop Card in the left-most row

Drop off a Package on a Stoop Card (1 action)

- When dropping off a Package, it must form a word, using Magazines and Newspapers as needed.
- Magazines count as any letter. 
- There can only be one word on each Stoop Card. If there's already a word there, you must combine your Packages with those letters to form a new word, rearranging and taking Magazines and Newspapers from buildings as needed.
- If you have enough remaining actions to drop off multiple Packages, they can be used at the same time to form a word.
- When dropping off Packages, you may add any of your Envelope Tokens, which count as any letter. They do not have to be carried by a Carrier, and adding Envelopes is NOT an action. 
- You can only use words found in a dictionary (players' choice).

After 3 actions, your turn ends.

Players take turns clockwise.

STAMPED STOOPS

When you drop off a package on a Stoop Card with a stamp, place your Stamp Token in the top-right corner. If another player has already placed a Stamp Token on that Stoop Card, replace it with your own and return the stamp to that player. Stamp Tokens count as one Victory Point.

MAILBOX STOOPS

When the word on a Mailbox Stoop Card grows to the length on the card (ex: 5-letter word), the player who completed that word gets one Envelope Token (or 2 if on the 7-letter word Stoop Card). Envelope Tokens can be used as any letter.

NOTE: For an easier game, every player with a package on that Stoop Card gets Envelopes

ENDING THE GAME

The game ends when one player has dropped off all of their Packages, or if a player has earned NINE Victory Points. Stoop Card occupied = 1 point. Stamp Token = 1 point. That player wins!
